**DEPARTMENT OF CHEMISTRY**  
**CURIE CLUB OF CHEMISTRY**  
**PROGRAM REPORT ON INDUSTRIAL VISIT**

**“INDUSTRIAL VISIT OF TAMIL NADU KHADI AND VILLAGE INDUSTRIES  
BOARDBATHING SOAP UNIT on 12th DEC- 2025”**

**Objective:**

The industrial visit was organized by department of chemistry to provide practical exposure to students and to bridge the gap between theoretical knowledge and real-time industrial practices. The visit aimed to help students understand industrial processes, workplace safety and professional ethics followed in industries. Around 30 students of chemistry Course accompanied by all the faculty members of chemistry department participated in the industrial visit.

**Program Description:**

The industrial visit was conducted on 12/12/2025. The group reached the soap factory located at thirukkazhukundram at 11 am and was welcomed by the industry officials. An introductory session was conducted, during which the company profile and soap manufacturing process were explained. Industry experts explained the functioning of machines, production processes, quality control measures, and safety protocols. Students were encouraged to ask questions and interact with professionals, which made the session highly informative. The visit concluded with a vote of thanks to the management and staff for their cooperation and valuable guidance.

**Outcome of the Visit:**

- Students gained practical knowledge of industrial operations
- Improved understanding of real-world applications of theoretical concepts
- Exposure to industrial safety standards and work culture
- Enhanced awareness of career opportunities in the industry
